The screenshot displays a CAD system interface. At the top, a row of eight circular icons represents fire stations, each with a firefighter silhouette and a name: Morrison, Beta, Jackson, Kelly, Wade, Warren, Wilson, and Smith. Below these icons, a communication log shows messages from Warren and Morrison. The main area is a map of a region including Lake St. Lawrence, with various roads and landmarks labeled. Red markers indicate the locations of stations (Warren, Beta, Kelly, Wade, Smith) and an incident (Wade). On the right, two callout boxes show status updates for Wilson and Smith. At the bottom left, station status is shown for Station 1, Station 2, and Station 3. A blue box at the bottom contains a disclaimer.

IT IS ALSO SET UP ON T2 & E2's COMPUTERS AND WILL BE SET UP ON ALL APPARATUS WITH A CAD COMPUTER. THIS IS NOT OUR MEANS OF RESPONDING TO DISPATCH, THIS IS REFERENCE ONLY AND ALL EXISTING SURREY DISPATCH AND CAD PROTOCOLS MUST STILL BE FOLLOWED.
